

Title: Online Badminton Racket Store

Member: Mak Yu En , Lee Zhi Wei , Suguntan

Introduction

The purpose I made this website because I'm a badminton lover and I want to make money . Also I want to do work related to my interests . The website is showing about badminton racquet .

Story

- ▶ *The project was inspired by the lack of specialized online stores for badminton gear. As badminton players ourselves, we wanted to create a user-friendly platform focused solely on badminton rackets.*
- ▶ *We were motivated to create this project because we wanted to help other players—especially beginners and intermediate athletes—quickly find rackets that match their playing style, strength, and level of experience.*
- ▶ *The primary users of our website are students, amateur and professional players, and coaches who are looking for a specialized online platform that understands the nuances of badminton gear and simplifies the shopping process.*

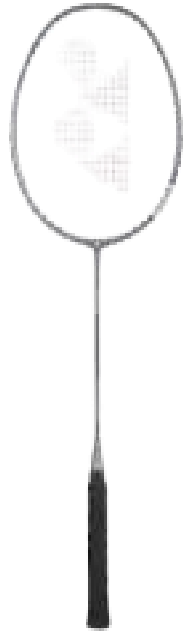

Development

- ▶ We developed the website using a combination of HTML, CSS, and JavaScript for the front end to ensure a responsive and interactive user interface, and we integrated PHP and MySQL in the back end to handle dynamic content
- ▶ Key features of the website include a visually appealing homepage with a responsive banner slider, product listing pages, and a fully functional cart
- ▶ We also included a review and rating section for giving users confidence and transparency about who we are and what we offer.
- ▶ We plan to enhance the website by integrating a secure payment gateway, adding user account dashboards, and possibly introducing machine learning to recommend products based on user behavior and preferences

PRODUCT

ASTROX 77 PRO

ASTROX 88D PRO

ASTROX 100ZZ

Product

Arcsaber 09

Arcsaber 11 pro

Arcsaber 7 pro

ENDING

**That's all about my
website thank you**
